The loudest positive noise for "Truth" and "Peace" is enjoyed by all our citizens when that noise is the sound of your vote! Let no one or anything keep you from obtaining the "Truth" and "Living Free"
"Keep the Faith"

THE IMPORTANCE OF VACCINATIONS

Vaccinations are an important part of family and public health. Vaccines prevent the spread of contagious, dangerous, and deadly diseases. These include measles, polio, mumps, chicken pox, whooping cough, diphtheria, and HPV. A vaccine (or immunization) is a way to build your body's natural immunity to a disease before you get sick. This keeps you from getting and spreading the disease. Everyone needs vaccines. They are recommended for infants, children, teenagers, and adults. There are widely accepted immunization schedules available. They list what vaccines are needed, and at what age they should be given.

Are you a member or leader of a local faith-based organization that would like us to share your upcoming news and events? Contact us today! Arizona OIC works closely with many local faith organizations that help accomplish and support our mission to **helping people help themselves**. We value our partnerships with organizations of many different backgrounds. Send us your information by contacting us.

As a non-profit 501(c)3 organization, Arizona OIC relies on donations, private sector funding, and special events for its operations. While grants were available when Arizona OIC was founded many years ago, over the past several decades public funding and grants have been disappearing. As a result, Arizona OIC has been actively developing its private sector relationships and partnerships, whereby companies rely on Arizona OIC to train their entry-level workforce. If your organization is interested in becoming involved as a Corporate Sponsor of OIC, please contact us at gene.blue@azoic.org or call 602-254-5081.
